Public Workshop Notification

Dear Sir or Madam:

The California Air Resources Board (ARB) invites you to participate in a public workshop to solicit comments on potential modifications to the gasoline cargo tank vapor recovery program. Information for the workshop is below:

Subject: Proposed Gasoline Cargo Tank Regulations

Date: Wednesday, March 2, 2005

Time: 1:00 p.m. to 4:00 p.m.

Location: MLD 1st floor Conference Room
1927 13th Street
Sacramento, California, 95814

Teleconference: To participate via teleconference, please contact Elizabeth Mongar at (916) 327-0900 no later than February 25, 2005.

Background:

At previous workshops and meetings the ARB presented possible revisions to current gasoline cargo tank vapor recovery requirements. Areas of cargo tank operations discussed for regulatory development included: methods for determining transportation, degassing, and transfer hose emissions as well as a tester certification program.

Workshop Information:

This workshop is to present updated information on ARB efforts to quantify gasoline cargo tank emissions, to present potential control strategies, and to move forward with the previously discussed topics. Of primary importance is the establishment of timelines for regulatory development. Additional cargo tank information may be found at: <http://www.arb.ca.gov/enf/cargotanks/cargotanks.htm>.

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our Website: <http://www.arb.ca.gov>.

California Environmental Protection Agency

Dear Sir or Madam
